Air Cargo Agents Association of Pakistan (ACAAP), being the sole representative body Air Cargo/Freight Forwarders in Pakistan is vigilant and well aware of the day to day developments in regard to the Cargo Shipments, rules and regulation and other changes coming around in the Air freight Industry across the globe, especially after the pandemic of COVI-19 and ACAAP keeps its member agents well aware of the changes, impart different training to them accordingly and keep them updated. Recently new policy by ICAO and IATA have been made that DGR Course should be imparted only through Institutes approved to impart training on Competency Based Training & Assessment, therefore, ACAAP taken this up on priority basis and made immediate arrangements for imparting training to its members under the strict compliances of rules and regulations of CBTA. The process is going on all over the country and ACAAP is getting its members trained accordingly in this course

A team of dedicated senior Members of ACAAP looks after the affairs of the training and other educational activities of the association, and takes all steps which are necessary to initiate or promote actions which are likely to be beneficial for the Air Cargo Industry and are in the interest of Air Cargo fraternity in the country. ACAAP assists its members in all possible way ordinarily and particularly when their business interest or trade comes in trouble.

Over three hundred Air Cargo Agents are registered members of ACAAP from all over the Country. ACAAP members also have GSAs of almost every airlines operating across the globe.

Educational Activities and programs:

ACAAP had arranged for and had trained over 500 personals of Air Cargo Industry from all over the country in DGR Course, another around 250 personals of the Industry were trained in Cargo Sales and Handling Basic Course in the previous year, personals from the Industry are also trained in different courses related to Air Cargo Industry. Presently ACAAP is imparting training to personals from Air Cargo in DGR Course under CBTA System.

ACAAP encourage Professional & Educational knowledge to the Air Cargo Agents in Pakistan and is continuously engaged in imparting Training on different Professional and Educational knowledge to the Air Cargo Agents through different Courses, which are required to meet the regulatory requirements of the industry and develop skills and expertise among the personals engaged in serving the Air Cargo Industry of the country.

Apart from personals of the Air Cargo Industry, ACAAP also impart trainings to others who handle Dangerous Goods which comes under Regulations of daily use in hospitals and other industries.

ACAAP is engaged in holding Seminars and Workshops to impart knowledge and awareness to its members to handle and follow up, rules, regulations of different local governmental and international departments for executing their business and to face challenges of the modern world.

ACAAP has planned to arrange more Courses during its forthcoming schedules. Training courses will continue in future as well, at different stations in Pakistan by ACAAP to educate more people from air freight industry as well others.
